

# CROYDE BABY BATH

A height-adjustable baby bath with Easy-Pour tub for quick and easy emptying.

The Croyde Baby Bath is an ergonomic solution for infant bathing, with height adjustment and an Easy-Pour tub.

The Croyde Baby Bath is lightweight and easy to move with exceptional balance.

The anti-splash design means spillages during transfer are significantly reduced.

It is also compatible with hospital approved cleaning solutions and wipes for easy cleaning.

## EASY- POUR TUB

The Croyde Baby Bath can be emptied using the Easy-Pour Tub.

The spout provides accuracy when emptying the bath, reducing spillage and cleaning time. Use the easy to grip handle to tilt the tub and the spout will guide the water into the drain without spilling. This eliminates the need for the tub to be lifted and carried.

## HEIGHT ADJUSTABLE

The Croyde Baby Bath can be raised and lowered in one smooth movement using the foot pedal, allowing the care giver to tailor the height to reduce bending or stooping.

The tub can also be raised to a suitable height above a drain or sluice to make emptying simpler.
