CROYDE SLEEPER CHAIR

Discover the Croyde Hospital Sleeper Chair, a multi-functional hospital chair bed for overnight visitors.

The Croyde Hospital Sleeper Chair is a space-saving solution for use in the hospital environment.

The compact footprint takes up minimal space in bays and can be quickly and easily pulled out into a chaise longue or full-length single bed to facilitate comfortable stays.

Reflex foam cushioning delivers high levels of comfort in all configurations, whether sitting or sleeping. The modern design and choice of colours complement any interior theme.

For ease of movement within and between rooms, the Croyde Sleeper Chair can be wheeled around the space and then be securely locked into place using the brakes.

EASE OF USE

The easy to extend design means this comfortable chair can be easily pulled out into a chaise longue or full-length single bed. This can be carried out by a partner or family member to avoid taking staff away from other tasks.

PARTNER / FAMILY STAYS

The compact footprint means the Croyde Sleeper Chair fits alongside the bed, even in a bay, to facilitate partner, parent or family stays in any hospital department.

STAFF REST AREAS

The Croyde Sleeper Chair is also a perfect addition to any staff area, creating a comfortable and convenient place for staff to rest.
